

Jeffrey and Jaimee's Speech

Jaimee: hello class of 2022. Wow what an adventure we had. We would like to start by thanking a few people.

Jeffrey: We would like to start by thanking our parents for always making sure we got our schoolwork done before we did anything else. Also we would like to thank the staff here at goal academy for the help and support that was provided to us. And most importantly we would like to thank our super funny, sarcastic, caring and supportive adviser Mr. Hash.

Jaimee: the experience that goal academy provided me with was something that I have never experienced before. I came to goal academy at the beginning of my junior year. Prior to coming to goal I was attending a different public highschool that caused me lots of problems. All that I remember is coming home from school or practice and being asked how my day was. I often found myself saying that it was just ok and nothing more. I was still attending this other public school when covid hit. I found myself struggling even more until my brother Jeffrey and my parents came up to me and said, Jaimee I know that you don't see yourself going to an online school because of your social life but you have to come with me to this school and just try it for one year. After debating with myself throughout summer break I finally decided to take them up on their offer. I went to goal and they welcomed me with open arms. For once I didn't feel like just a number. I met so many people I already knew. The amount of times that they asked me if I needed help with work or anything else was amazing. I soon fell in love with this school so I decided to re enroll my senior year and be a part of concurrent enrollment. Thanks to goal academy. I had the opportunity to take college classes to work towards my criminal justice degree at no cost. I fell in love with this school so much I regret waiting so long to come to goal. It was the best decision of my life.

Jeffrey: I started at goal my freshman year. I decided to go to goal because I wanted to try something new. It's been a wonderful time at goal and great memories were made like when some of the goal vans got stuck in south Dakota from the snow during the goal ventures trip. The goal ventures trips were the best part of being at goal. I got to go out of state, goal ventures was the first time I learned how to ski and man there was lots of falling down in the snow. I have really enjoyed goal for the past 4 years. The staffing is great and always there to help you accomplish what you set forward. It's a very big group of supportive staff. Goal has been the best decision I have ever made. Thank you to everyone at goal for making it a great learning environment.
